

Year 4 Homework

4th December 2025

Dear Parents and Carers,

We've had another busy and productive week in Year 4, filled with creativity, discussion and problem-solving. The children have worked incredibly hard and should be very proud of everything they have achieved.

In English, we have been developing our skills in writing **balanced arguments**, learning how to present different viewpoints clearly and fairly before coming to a thoughtful conclusion. The children have shown great maturity in their discussions and writing.

In Maths, we have been learning how to **add and subtract fractions with common denominators and even converted to find a common denominator**. The class has shown excellent progress in understanding how fractions work and applying their knowledge to a range of problems.

In RE, the children have created **beautiful poems linked to the concept of Incarnation**, reflecting deeply on the meaning behind the Christmas story and expressing their ideas with sensitivity and imagination.

We have also continued our work in Computing, exploring **3D modelling and Computer Aided Design**. The children are developing confidence in using digital tools to design and create, and it has been wonderful to see their creativity shine through.

Spelling

We are still working on the prefix 'inter' and this week there is a spelling activity on paper to complete.

Math

Homework this week is a class competition relating to all the skills we have covered this half term, the competition will run from Thursday afternoon for a week, the more you play and the accuracy of questions answered will win prizes.

This is the final week of homework before Christmas

Have a fantastic Christmas

Mrs Jenkins
