

Year 4 Homework

Thursday 5th March

Dear Parents and Carers,

In Maths, we have been learning about negative numbers. The children have explored numbers below zero, placing them on number lines and solving simple problems involving temperature and real-life contexts. Math homework is on SumDog.

In Literacy, we have started writing imaginative food stories. The children have been using exciting adjectives, powerful verbs and descriptive language to bring their stories to life.

In Topic, we have been learning about Victorian inventions and the inventors who created them. We have explored how inventions changed people's lives and discussed some famous inventors such as Alexander Graham Bell and Thomas Edison.

Please help your child to learn the spelling words, there will be a test every Monday.

Spelling Words -

television	inclusion	extension	expulsion
diversion	erosion	inclusion	happened

This week I have introduced the children to Giglets; an online reading platform.

Giglets gives pupils access to a wide range of engaging digital books, including stories, non-fiction texts and poetry. The platform also includes comprehension questions and activities to help develop important reading skills such as vocabulary, inference and retrieval.

For homework, your child will be asked to log in to Giglets and complete an assigned text and accompanying questions. Please encourage them to read carefully and answer in full sentences where possible. The children have their login details, the password is Bridget1

If you have any difficulties accessing Giglets, please let me know.

Have a fabulous weekend,

Mrs Jenkins
