

Year 4 Homework

Thursday 12th March

Dear Parents and Carers,

In maths, we have been revisiting multiplication strategies, we have also been interpreting pie charts, thinking carefully about what the information shows and how we can answer questions using the data. Math homework is a class competition on SumDog linked to multiplication and division. The competition runs from today until Sunday evening so please make sure this is completed by Sunday.

In French, the children have been learning about the months of the year and the seasons. They have also been practising how to talk about their birthdays.

We have been finding out about the work of the famous engineer Isambard Brunel. Inspired by his designs, the children became engineers themselves! They worked in teams to try and build strong beam bridges and the tallest towers they could.

In art, we have started learning about William Morris and exploring his beautiful patterns and designs.

We have also begun planning our Lent charities. The children have been thinking about how we can help others during this important time in the liturgical calendar. All the information about our Lent charity plans will be sent home next week.

Please help your child to learn the spelling words, there will be a test every Monday.

Spelling Words -

disagree	disappear	dislike	disobey	unclear
illegal	illegible	illiterate	disqualify	unkind

This week there is another Giglet reading challenge. Please encourage your child to login with the details sent home and complete the reading activity. The children have their login details, the password is Bridget1.

Have a fabulous weekend,

Mrs Jenkins
